RELEVANT WORK EXPERIENCE

Junior Web Developer
Field Trip Health | Contract | 03/2022 - Present
- Working closely with the Marketing and Design teams to make sure the design concepts are translated into code, improving the overall user experience and generating more leads.

Web Development Intern
Field Trip Health | Internship | 10/2021 - 03/2022
- Lead development on a custom React calendar app that improved user experience and boosted conversion rates.
- Built automated testing critical to new product launch using TestProject.
- Wrote Google Cloud Functions connected to Cloud Storage and external Scheduler API to help Data Visualization.
- Helped implementing a new feature to the company's mobile App using React Native, Typescript and GraphQL.

WordPress Developer
ShEvalesco | Practicum | 03/2021 - 05/2021
- Developed ShEvalesco's new website using Wordpress and Elementor for Wordpress.
- Conducted market and user research to understand ShEvalesco's needs.
- Worked closely with the organization's Executive Director to design the content architecture, wireframes, and mockups.

Teacher Assistant / Marker
BCIT - Computing Department | Part-time | 10/2020 - 12/2020
- I went beyond expectations on my Web Development courses and was chosen among 75 other students to take on this role.
- Assisted the instructor in grading and marking assignments, term projects, and other works submitted by over 100 students in fulfillment of the Web Development 1 course requirement (HTML and CSS).
- Provided constructive and clear written feedback on each student's assignment.

EDUCATION

Web Development
Lighthouse Labs | 06/2021 - 09/2021
Development of the front-end and back-end of web applications using industry-leading languages and frameworks.

Digital Design And Development
BCIT | 09/2019 - 05/2021
